Aryan Yadav

Software Developer

9833281287 ◇ aaryany.2505@gmail.com ◇ LinkedIn ◇ GitHub

SKILLS

Frontend Technologies : HTML, CSS, JavaScript, React, Tailwind, Shadcn UI, TypeScript, Next.js
Backend and Database: Node.js, Express.js, MongoDB, PostgreSQL, REST API, Firebase, supabase, prisma
Tools : Git, Github, Figma, Vite, Vercel, VS Code, Postman, Docker
Other Skills : Time Management, Leadership, Problem Solving, Communication Skills, Responsiveness, Unit Testing

EXPERIENCE

Web Developer '25 — Present
Spine India Technologies Mumbai, India

- Delivered 15+ client-facing web solutions with a focus on performance, accessibility, and responsive design.
- Developed modern frontend applications using React, JavaScript, Tailwind CSS, and component-driven architecture.
- Collaborated with clients throughout the project lifecycle, from requirement gathering to deployment and maintenance.
- Implemented SEO best practices, improving search visibility and website discoverability.
- Managed website deployments, domain configurations, DNS records, hosting environments, and production updates.

PROJECTS

Water Gallon Management System Link Apr — Present

- **Tech Stack: MongoDB, Express.js, React.js, Node.js (MERN), JWT, REST APIs**
- Developed a full-stack web application to manage water delivery orders, user addresses, and scheduling.
- Implemented secure authentication and authorization using JWT with role-based access control (Admin/User).
- Designed and integrated RESTful APIs for order management, address handling, and user operations.
- Built an admin dashboard to monitor orders, delivery status, and customer data in real time.
- Structured scalable backend architecture and optimized frontend using reusable React components.

Perplexcity (AI-Powered Chat-Based Search Application) Link May '25 — Present

- **Tech Stack: MongoDB, Express.js, React.js, Node.js, REST APIs**
- Developed a chat-based search application inspired by modern AI tools for interactive query handling.
- Integrated external APIs to fetch and display contextual, structured responses.
- Implemented asynchronous data fetching with loading states, error handling, and optimized performance.
- Designed responsive and user-friendly UI for improved readability and engagement.
- Managed application state efficiently for real-time conversation flow.

Magicdraw(Real-Time Collaborative Drawing Tool) Link May '25 — Present

- **Tech Stack:** MongoDB, Express.js, React.js, Node.js, WebSockets, HTML Canvas
- Built a real-time collaborative whiteboard application supporting shapes, freehand drawing, and element manipulation.
- Implemented WebSocket-based communication for multi-user real-time drawing and synchronization.
- Designed canvas rendering system for smooth and efficient drawing performance.
- Developed modular architecture for drawing tools enabling scalability and feature extension.
- Implemented export functionality (PNG/JPEG) for downloading drawings.
- Created backend APIs to store and retrieve diagrams using MongoDB.

EDUCATION

MCA, Vivekanand Education Society's Institute of Technology,Mumbai (GPA: 8.5) Sep '24 — Present

BscIT, Vidyalankar School of Information and Technology,Mumbai (GPA: 9.1) Sep '21 — May '24

EXTRA-CURRICULAR ACTIVITIES

Photography Head, Student Council, Vidyalankar School of Information Technology Jan '22 — Jan '23

- Led a 6-member team covering college events, producing visual content increasing social media engagement by 60%.
- Mentored juniors on creative direction and technical execution, fostering leadership pipeline.
